

Enlever message "no valid subscription"

virtualisation, Proxmox

Ouvrir le fichier pvemanagerlib.js :

```
nano /usr/share/pve-manager/ext6/pvemanagerlib.js
```

Rechercher cette ligne :

```
if (data.status !== 'Active') {
```

Et enlever "!"

```
if (data.status == 'Active') {
```

Redémarrer pveproxy :

```
pveproxy restart
```
